EXPERIENCE

DeSync Cyber Solution, Goraul - *Full Stack Developer*

Aug 2021 - PRESENT

- Created a smart card creator for cyber cafes that create smart card of adhar card, covid certificated and many more cards.
- Created an id card creator software called Deto.
- 11 static websites created for clients.

PROJECTS

Deto

With deto you have to upload a csv file for data and photos and your id cards will be ready in a short time. Here is link of project : <https://deto.desync.in>

Sc2

Sc2 helps to create smart card of adhar card, covid vaccine and many more cards. Here is link of project: <https://sc2.desync.in>

Share Link

On share link portal you have to upload a file and you will get a link then share the link with anyone whom you want to share the file with . Here is the link of project: <https://share-link.desync.in>

Snake Game

Here you can play snake game online. Here is link of project: <https://snake-game.desync.in>
