---

EXPERIENCE

DeSync Cyber Solution, Goraul - *Full Stack Developer*

Aug **2021 -** *April* **2022**

- Created a smart card creator that creates a smart card of adhar card, covid certificated and many more cards. Created an ID card creator software called Deto.

- Created 11 static websites for clients.

- Also worked as a server administrator for server management like deployment of website, proxy server setting like nginx.

PROJECTS

Deto

With deto you have to upload a CSV file for data and photos and your id cards will be ready in a short span of time also you can design business cards and question papers.

History Timeline

In the history timeline, you search in History by Events, Date, Month, Person name, Year Range and Many more at History.

DeSync Blog

Here I write a blog on various topics.

Share Link

On the share link portal, you have to upload a file and you will get a link then share the link with anyone whom you want to share the file with.
